## **ANTHONY FIELD ACADEMY**

### **A world-class professional development program for emerging performing arts leaders**

As part of the [Perth 2024 ISPA Congress](#), the Anthony Field Academy is an intensive 1.5 day professional development program dedicated to developing your leadership talent and acumen. The program provides an opportunity to learn from established, successful international and national leaders who will share their practice, skills, and knowledge. You will also be able to network with peers and lend your voice to enabling transformations in the sector.

The program will focus on real-time examples of new international models of artistic and industry breakthroughs, showcasing brave examples of transformation with arts leaders from across the country and around the world to inspire the next breakthroughs in arts management and practice.

We encourage you to also take part in the full Perth ISPA Congress providing the opportunity to connect with national and international established leaders. This will include exciting professional development and networking opportunities to discuss the future of performing arts management, and cultivate relationships with colleagues from around the world.

Anthony Field Academy places are limited, so early registration is recommended.

The founding force behind the creation of the Academy was long time ISPA member Anthony Field. His vision and commitment to developing the next generation of arts leaders inspired him, and indeed ISPA, to create the Academy.
